BUILDING DESIGN & EXTERIOR

- The building forms are articulated through the use of timber framing and mid-floor, Nu-wall aluminium cladding, vertical cedar, Cemintel concrete facade and an eye-catching unique screen feature.
- All exterior materials are durable, high quality featuring NZ fabricated high thermal performance suite double glazed uPVC windows and glass balustrade system on upper-level decking.

BUILDING DESIGN & EXTERIOR

- An additional private courtyard on the ground floor and deck with a glass balustrade on the upper levels (T1-T3) creates an extra living space and indoor-outdoor flow.
- Beautifully landscaped gardens as well as conveniently located bicycle storage access.

MODERN INTERIORS

MODERN INTERIORS

ABOUT THE DEVELOPERS

MEMBER
2019-2020

Nest or Invest don't build houses, they build homes you love to come home to – or are proud to invest in. Architecturally designed homes created for healthy, modern, comfortable and affordable living.

Everybody deserves to live in a lovely home, and we have made this real through Jasnish's passion for property, founded solidly on NZ and overseas engineering and management experience.

Creating a legacy of properties, we deliver to you the highest standard of design, workmanship and beholding techniques that turn special restrictions into comfortable, personalised living.

From initial sketch drawings, through to final key hand, over we create unique, bespoke designs for your living enjoyment and investment security.

Jasnish Gujral - Managing Director

ABOUT THE ARCHITECTS

The logo for Context Architects, featuring the word "context" in a bold, blue, sans-serif font. The letter 't' has a unique design with a horizontal bar that extends to the right and then curves upwards.

Auckland based Context Architects create designs that incorporate land and people-centric outcomes in context with the environment and community.

They provide a dedicated, highly experienced landscape, architecture, urban design team working on each project. They aim to provide connected, high-performing design that marries functionality and commerciality with an attractive, compelling, enduring sense of place and community.

FREQUENTLY ASKED QUESTIONS

WHAT MAKES THESE TERRACES SPECIAL?

Bollard offers contemporary designed terrace houses that are spacious, liveable and conveniently located in central west Auckland. Bollard has been designed for liveability. These homes are spacious and bright and light all with generous indoor and outdoor spaces with considerable attention paid to privacy, acoustic ratings, bathroom and kitchen design, quality finishes and efficient layout.

WHAT AM I PURCHASING?

You are purchasing a Freehold, Fee simple Terraced house, a most common and highest form of private land ownership. This means the title is free of any other claims and you can sell or pass the property to whoever you want.

The ownership structure means that all owners have purchased Freehold Unit Titles. This means you own outright your apartment and have a common interest with the other owners in the common areas, landscaped podium, entrances etc.

HOW MANY HOUSES ARE THERE?

There are 20 Terrace houses. Units 1- 13 & 20 have their own Car Parking. There is also ample off street parking available.

WHEN WILL THE BUILDING BE COMPLETED?

Expected commencement of construction is targeted for January 2023 with a targeted completion of January 2024.

HOW MUCH DEPOSIT REQUIRED TO PURCHASE?

10% (20% for non-NZ residents) of the purchase price being required within 5 working days of signing the Sale and Purchase Agreement.

IS MY DEPOSIT SAFE?

Yes, all deposit sums are held in the Vendors Solicitors Trust Account until the date of settlement.

FREQUENTLY ASKED QUESTIONS

HOW SECURE WILL MY HOUSE BE?

An access only electric gate at the driveway entry will ensure no public thoroughfare in the development.

HOW DOES THE WATER SYSTEM WORK?

Each apartment has its own stand-alone hot water unit. Coldwater is reticulated to each apartment on a metered basis.

CAN THE DEVELOPER MAKE VARIATIONS TO THE OUTLINED SPECIFICATION?

If any materials, finishes, products or systems referred to in the Plans and Specifications are unable to be procured on reasonable terms, in a timely manner or are prohibited by any statute, regulation, by law or another requirement, the vendor may substitute other building items provided they are of a standard as near as reasonably practicable to the building items referred in the Plans and Specifications.

WHAT ARE THE BUILDING WARRANTIES?

There are various vendor and building warranties which are for the benefit of the purchaser. Some are provided by the Vendor, others are provided by the builder or the suppliers of materials and products for the construction and fit-out of the building.

The purchaser will get the warranties on appliances and fit-out materials used in the construction of the apartment as provided by the suppliers. Some building materials and works (e.g. electrical and plumbing, etc.) are warranted by the suppliers as per their producer statements. In compliance with the Building Act, there will be a Weathertightness Warranty from the selected builder for five years from practical completion.

There will also be a Maintenance Warranty, providing 12 months for notification and rectification of Defects. All building warranties will be in accordance with the NZ Building Act 2004.

There will also be a 10 Year comprehensive building warranty issued upon completion of the building.

WILL THE BUILDING BE WATERTIGHT?

Yes, the building has been designed to the latest Building Code requirements. As part of obtaining a Building Consent, façade and weather tightness are subject to a peer (independent) review.

FREQUENTLY ASKED QUESTIONS

WILL MY HOUSE BE SOUNDPROOFED?

The design team have put a lot of focus on this, ensuring that the acoustic systems being utilised will achieve a rating significantly above what is required by the Building Code. For example, the complex is of timber mid floor construction, GIB acoustic inter tenancy system, and high rated uPVC Windows.

IS THE PROPERTY BUILT TO SEISMIC CODES IN NEW ZEALAND?

Yes, the building will meet stringent design regulations in respect to seismic design and structural integrity. As part of obtaining a Building Consent, Structural Design is subject to a peer (independent) review.

WILL THE TERRACES BE SETUP FOR INTERNET AND TV?

Yes, each apartment will be provided with an Ultra-Fast Fibre connection and a connection for satellite TV. Charges associated with services set up and ongoing service charges are payable by the user.

IS THERE A BODY CORPORATE?

No, there is no body corporate required for this development.
